

Elekta Registry Informatics

Information meets innovation

Next generation cancer registry informatics

At Elekta, we have led the way in cancer registry informatics for decades. We make it our business to listen to your needs and to bring you meaningful innovations that will make a difference to your critical role in cancer surveillance.

Our next generation cancer registry software builds on a solid foundation of quality and reliability to further elevate your workflow efficiency and save you valuable time.

The journey towards a better understanding of cancer care starts here—with you—and with Elekta Registry Informatics.

Where information meets innovation.

Modernize your cancer registry workflow

Elekta Registry Informatics provides a clear, intuitive, web-based workspace and a host of new time-saving features to improve your workflow efficiency. Located in Axis Cloud as a SaaS solution, it provides a secure foundation for improved remote access.

Superior user experience

Simple software navigation for streamlined workflows

Find cases with ease using helpful filters in basic and advanced searches

Continue navigating the software while exporting files

Configure your cancer registry workflow to your specific data management requirements

Streamlined abstracting

Search within the abstract to find fields rapidly

Collapse and expand fields as required

Configure and add fields quickly and easily

Quality data you can rely on

With sophisticated review and acceptance tools, efficient merge capabilities, effective patient follow-up and routine updates to ensure accurate and complete data, Elekta Registry Informatics will help you to comply with local, national and international regulatory requirements*.

Achieve better data, easier access, quality benchmarking and actionable insights with Elekta Registry Informatics.

Advanced data integration

- Import data directly from your OIS or EHR through open-source file configuration
- The import manager creates a new abstract or adds a follow-up record
- Customizable lifetime patient follow-up manager incorporates all required follow-up details
- DeathMatch® and SSDI tools match patients against current national mortality data
- Fully integrated analytics dashboards provide valuable performance insights

Multi-site flexibility

- Quickly choose to work within one or multiple facilities
- Share treatment and follow-up information across facilities easily, without duplicating effort
- Accommodate multiple NAACCR versions across your facilities

Easy reporting

- Advanced filter options simplify comprehensive data analysis and reporting
- Rapidly generate pre-defined reports on selected facilities
- Save and share reports conveniently

*Elekta Registry Informatics meets current regulatory and reporting requirements, including: ACoS, AJCC, NAACCR, NPCR and SEER (national and state/provincial), ICD-O-3 and ICD-10.

Efficient dedicated service and support

Elekta Registry Informatics Support Team

Multiple channels are available for you to receive support and access resources. Our experienced support specialists, including Certified Tumor Registrars and IT experts, are available to answer questions and solve problems quickly and completely. Many of our support team members are active in the industry, such as serving on national standard-setting committees.

Elekta Professional Services

Elekta Professional Services allow you to benefit from our rich implementation and training expertise to unlock the full potential of Elekta Registry Informatics and configure it to your individual needs.

*Axis Cloud is subject to regional Azure availability.

**Death Match not available outside of the USA.

Elekta Axis Cloud

With Axis Cloud you're free to focus completely on your cancer registry workflows. The advanced data security features allow safe remote working, giving you both flexibility and peace of mind.

Worry-free

Designed specifically for Elekta oncology software, Axis Cloud helps you improve the performance and scalability of your practice.

Cost-effective

Providing a fully managed service, Axis Cloud allows you to control costs and eliminate unplanned expenses.

Reliable

Leverage the power of Axis Cloud to boost your software performance and eliminate downtime.

Secure

Built and automated on Microsoft Azure, Axis Cloud benefits from built-in system compliance, the latest advanced data security features and multilayer threat protection.

Why Elekta Registry Informatics?

- ✔ Easy remote abstracting
- ✔ Efficient, streamlined workflows
- ✔ High-quality data validation
- ✔ Valuable quality performance insights
- ✔ Dedicated support specialists
- ✔ Advanced data security

Protecting your data and system performance

Elekta is ISO 27001
certified

Axis Cloud is SOC 2
Type 2 compliant
